Good morning everyone and welcome to the American Diploma section.

Let me first thank you for attending this orientation program and I am sure with your presence and cooperation we can make education a very happy journey for our kids.

Let me first introduce the program

What is the American Diploma

There are three international Programs
in KSA:

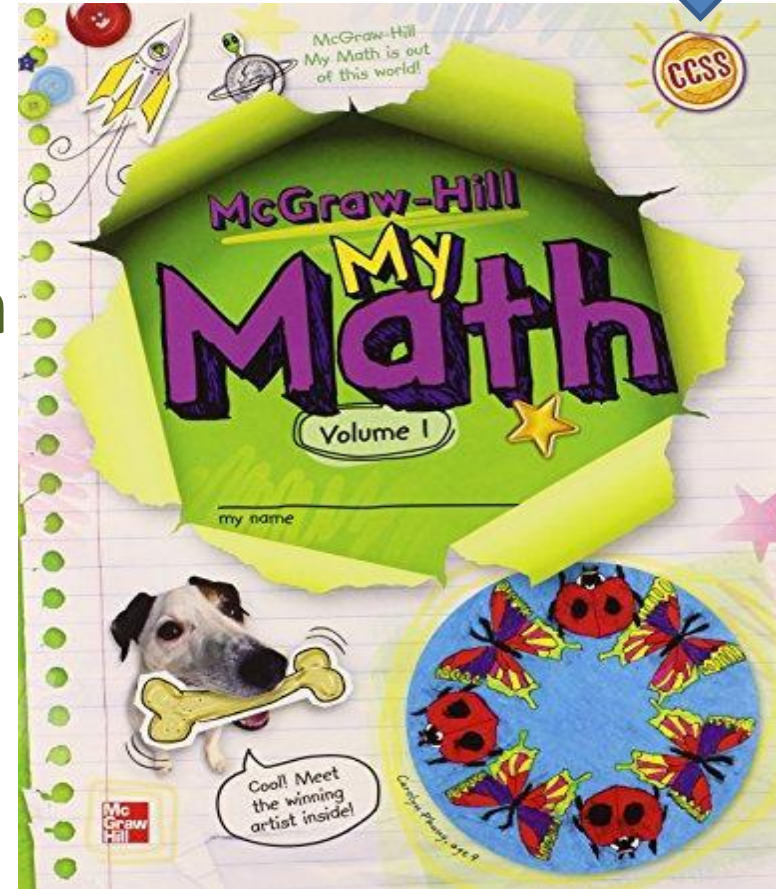

1. The American Diploma
2. British IG System
3. IB program.

What is the American Diploma

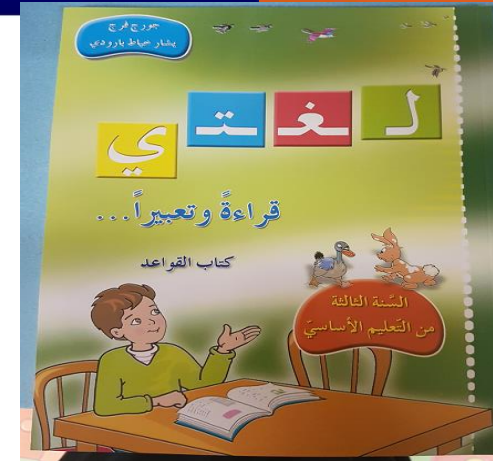

The program contains:

1. A curriculum that is based on the common core standards of the USA.

2- In addition to the strong English curriculum, the Arabic language , Islamic studies and the History of KSA are given full care because we care about students identity.

Accreditation

AdvancED accredited Dar-Assalam for
five years until **2019** in recognition of the
distinguished work and academic
performance of the team

Boys Phone 4708420 (10 lines) Fax 4708393

The program

We at Dar-Assalam **American** international program has adopted **Mc-Graw Hill** to support our curriculum with complete **LMS** support:

1. Tests / worksheets / and quizzes online .
2. Instant evaluation of students performance
3. Instant access by parents to monitor progress
4. Analysis of students results that help in bettering school work

MAP Test

During the months of **November** and **May** (Grades 3-6-9), your child will take the **Measures of Academic Progress™** tests (MAP). The Measure of Academic Progress (MAP) test is given twice annually to determine your child's instructional level and to measure academic growth throughout the school year in the areas of Math, Reading, and Language Usage. Results of MAP testing will be shared with you. MAP tests are taken on computers and are unique in that they adapt to your child's level of learning. As a result, each student has the same opportunity to succeed while maintaining a positive attitude toward testing.

Operations and Algebraic Thinking

Represent and Solve Problems

Analyze Patterns and Relationships

Number and Operations

Understand Place Value, Counting, and Cardinality

Number and Operations in Base Ten

Number and Operations - Fractions

Measurement and Data

Geometric Measurement and Problem Solving

Represent and Interpret Data

Whole Numbers: Place Value

- Decomposes whole numbers within 1,000 into hundreds, tens, and ones, in multiple ways
- Represents the value of digits in whole numbers using powers of 10 in exponential form
- Understands patterns of zeros when multiplying by 10, 100, 1,000, etc.
- Understands that the same digit, moved one place to the left, now represents 10 times the value
- Understands that the same digit, moved one place to the right, now represents 1/10 the value

Decimals: Compare/Order

- Compares decimals to the thousandths, with a different number of digits after the decimal point, using symbols
- Orders decimals to the thousandths, with a different number of digits after the decimal point

Exponents

- Represents the value of digits in whole numbers using powers of 10 in exponential form

Whole Numbers and Decimals: Rounding/Estimation

- Rounds decimals to any decimal place value

Whole Numbers: Place Value

- Decomposes whole numbers within 1,000 into hundreds, tens, and ones, in multiple ways
- Represents the value of digits in whole numbers using powers of 10 in exponential form
- Understands that the same digit, moved one place to the left, now represents 10 times the value
- Understands that the same digit, moved one place to the right, now represents 1/10 the value
